## **Too Tough to Die**

## **Black Label Society**

Take me through this darkness Carry me through this world Insane and lost confusion Forever always pushing for more

No, you can't cry
Oh, you can't cry
When you're too tough to die

This grave which bares my soul This grave which bares my name Lord I ask no questions Hold me once again

No, you can't cry
Oh, you can't cry
When you're too tough to die

Forever high, always high, always high Forever high, always high, always high Forever high, always high, always high Forever high, always high, always high

Forever high, always high, always high Forever high, always high, always high Forever high, always high, always high Forever high, always high and high

No, you can't cry
Oh, you can't cry
When you're too tough to die
