

## Dorner Party

Black Lips

If you're trying to find him, well you're gonna  
But I won't be staying with my mother  
I'm gonna lose control  
I'm going out on my own patrol, but you won't see me with another

I don't think I'll run away  
Maybe I will some other day  
But for now, I'm back a while, I'll say  
Why don't you come out here and play?

I'm looking down the view from the hilltop  
I can't tell the Ranger from a real cop  
They seem like just the same, all out to smear my name  
What can I do to make them all stop?

I don't think I'll run away  
Maybe I will some other day  
But for now, I'm back a while, I'll say  
Why don't you come out here and play?

Well my mind is burning with this reason  
cos you can't burn the house down in this season  
Get the cameras out of here, but you can shoot from over there  
Never mind the fire, cos we'll freeze him

I don't think I'll run away  
Maybe I will some other day  
But for now, I'm back a while, I'll say  
Why don't you come out here and play?
