

## Hatman

## Black Lips

In dreams I can't move  
Catatonic  
Blurred visions of doom  
I can't stop it  
Sounds melting into  
Static symphony  
The ghost's on the loose  
Creeping in my closet

Shot  
Catatonic  
Shot  
I can't stop it  
Shot  
Static symphony

Shadows in my room  
It's igniting  
Hat man's on the move  
Psychotropic  
The spiders drop through  
From the attic  
I'm coming unglued  
Demon magic

Shot  
Catatonic  
Shot  
I can't stop it  
Shot  
Static symphony

In dreams I can't move  
Catatonic  
Blurred visions of doom  
I can't stop it

Shot  
Catatonic  
Shot  
I can't stop it  
Shot  
Static symphony
