

Kassandra

Black Lips

Smoke rise above shallow graves
Steep climb, the guns lie in wait
Sharp eyes, she flashes through flames
Shells light the buildings they raised

Kassandra of the souls
Beamed into Bosnian homes
From Belgrade down to Split
Kassandra's a hit, let's tune in and turn on the switch

Lay down your arms, she's on the T.V.
Cease-fire, eyes glued to the screen
Showtime means moments of peace
Truce call for love's fantasy

Kassandra of the souls
Beamed into Bosnian homes
From Belgrade down to Split
Kassandra's a hit, let's tune in and turn on the switch
