

Make You Mine

Black Lips

Waking up, and hit the ground, running
Eyes on the prize, we'll cloud our eyes, the river streams keep
on flowing
You're leaving town, it's a brand new day
What was it now? You left, wide-
eyed while those wheels keep on turning

I need a little loving, tell me everything gon' be alright
It's only ten more miles and I'm coming on home tonight
Gonna make you mine

Gimme a sign, or call me up some time tomorrow
Right hand roads and moon late nights, I'm gonna beg, steal and
borrow
I wish you would, and hold on tight
Gearing up and going down, while having fun out on a Saturday n
ight

I need a little loving, tell me everything gon' be alright
It's only ten more miles and I'm coming on home tonight
Gonna make you mine

I need a little loving, tell me everything gon' be alright
It's only ten more miles and I'm coming on home tonight
Gonna make you mine
