Odelia  
You know how to make [?]

I take it that your pleasure is

Odelia  
You're so very common, still  
Odelia  
My heart is racing faster than an automobile

At bottom you're the same as  
Any other tease  
All that lies beneath your beauty

Odelia  
You can bring me back from the dead  
Odelia  
Don't listen to the words your mother said

I just wanna take you out for a ride  
You won't let me come inside  
Do you wanna see me,  
Or play run away and hide?  
Let me know what you decide
