

Prick

Black Lips

I just wanna feel that somethin', not nothing at all
I just wanna hold on to it, it comes when I call
Spittin' power, ain't nothin' to it, spread on the wall
Beatin' off to some secret language, touchin' tips in the stalls

I just want a prick of my own, hold it in my hand
Sweet oblivion, walking to the abyss, just like a prince
I just want a prick of my own, my own

I just wanna feel the power, everywhere I go
When I see somethin' soft, I'll bust it, penetrate impulse
Wanna stick it in everything, delicious criminal
Just me and my prick, baby, full of perilous awe

I just want a prick of my own, hold it in my hand
Sweet oblivion, walking to the abyss, just like a prince
I just want a prick of my own, my own

I just want, I just want
I just want, I just want
I just want, I just want
I just want, I just want

Wanna cruise with my prick, baby, ride the cowboy heat
Every object, it overwhelms me, isn't that so sweet?

I just want a prick of my own, hold it in my hand
Sweet oblivion, walking to the abyss, just like a prince
I just want a prick of my very own to kiss goodnight
Feel alive, I'd never be alone with you just by
I just want a prick of my own, my own

I just want, I just want
I just want, I just want
I just want, I just want
I just want, I just want
I just want, I just want
I just want
