

Smiling

Black Lips

So call the cops
Tell 'em to come pick me up
They'll break out the cuffs
When I get there I'll act tough

Nurse can take my blood and pills
Mental analysis
I won't sleep tonight
For resin burn too bright

So come on down
Bail me out
Don't act too concerned
The cops are bustin' all of us
Don't know who to trust
Yesterday we went too far

I hope that I can make some friends
Split some cider you put in
They don't talk a lot
Now they're sleepin' in my car

Oh come on Mom,
Collect those that will make her cry
I'm a stupid son
I was only havin' fun

So come on down
Bail me out
Don't act too concerned
The cops are bustin' all of us
Don't know who to trust
Reading the tags on the wall

I can't believe you called the cops
Can't believe they picked me up
They broke out the cuffs
But I never acted tough

So come on down
Bail me out
Don't act too concerned
The cops are bustin' all of us
Don't know who to trust
Yesterday we went too far
