

## Anneliese

Black Majesty

They were there on the night  
When it all went wrong  
Just an innocent soul  
Not the devil own  
Now she is standing alone  
Fear enshrouds her soul  
Her possession is beginning to take its toll

Hell is it near?  
She can hear the demons talking  
Trying to save her from the darkness  
Help to free her from this madness

Anneliese no longer dreams  
And all she does is scream  
Her hellish voices  
Eating the soul inside her  
Anneliese no longer smiles  
And all she does is fear  
The demons that enslave her mind  
Into this madness

As the evil embraced you  
Holly water was hell  
And the God that has made you  
Was no longer around  
Endless the suffering  
Agony is in extasy  
She must take her life

Anneliese no longer screams  
And all she does is dream  
Her hellish voices disappearing from inside  
Disappearing from inside  
Anneliese you'll never scream again  
Just dream
