

## Guardian

## Black Majesty

Destiny hands of injustice delivered

What has been received is not always as it seems  
Standing and alone the light fades as he leaves

Saviour be known  
Say a prayer to keep us safe  
Your words will prevail and set us free  
Father of time the sands are drifting  
Through your hands like water  
Guardian

Draining life controlled by a life of deception  
He has seen the visions that guide us to wisdom

What has been received is not always as it seems  
Standing and alone the light fades as he leaves

Saviour be known  
Say a prayer to keep us safe  
Your words will prevail and set us free  
Father of time the sands are drifting  
Through your hands like water  
Guardian

Life's embraced denied is the moment of dying  
Time is now relinquish your thoughts  
and your demons

What has been received is not always as it seems  
Standing and alone the light fades as he leaves

Saviour be known  
Say a prayer to keep us safe  
Your words will prevail and set us free  
Father of time the sands are drifting  
Through your hands like water  
Guardian

He's alive - standing right before you  
He'll show you a paradise  
Time to change your ways

There's a life you left behind  
Just a reminiscence of mankind  
There's a life you left behind  
and now it's gone  
In time I'll change my way
