

Set Stone On Fire

Black Majesty

Let's tear down the barriers
And take it to the streets
They'll never know the difference
While they're eating all their treats
We're all tired of their bullsh*t
And fake policies, why don't you hang your head
You're a fuc*ing disgrace

They're lying conniving
And sent us off to war
Why don't they send their children first
If they believe their cause
The writing was written
It was written on the walls
It's time for you to read it
And stand to the call

In this world that's filled with greed
We were made to make believe
We are living in prosperity
Lies!

Set stone on fire
We'll rise to fight the evil ones
Set stone on fire
We are fighting for our rights
And liberty

United we're standing
United we fight
Eradicating governments who killed everyone
The mother, the father, the daughter, the son
They're killing our land
They'll starve everyone

They're living in abundance
While we're sweating for a dime
They must think we're all stupid
While we're feeding their whole life
You see
The writing was written
It was written on the walls
It's time for you to read it
And stand to the call

In this world that's filled with greed
We were made to make believe
We are living in prosperity
Lies!

Set stone on fire
We'll rise to fight the evil ones
Set stone on fire
We are fighting for our rights
And liberty

Set stone on fire

Set stone on fire

In this world that's filled with greed
We were made to make believe
We are living in prosperity
Lies!

Set stone on fire
We'll rise to fight the evil ones
Set stone on fire
We are fighting for our rights
And liberty

Set stone on fire
Set stone on fire
Set stone on fire
Set stone on fire
Set stone on fire
