

## Vlad The Impaler

### Black Majesty

Tear down the walls I'm coming in  
Your kingdom now has fallen  
I'll take no prisoners in this war  
The enemy taken to flight  
Chase them deep into the night

Kill them seek them down  
And disemboweled them  
Kill them, burn them to the ground  
Kill them, see their fortress devastated  
Kill them, leave no one alive

The enemy is broken  
They've fallen one by one  
Deny them all of their last right

Impaled so they will guard my walls  
Let any who dares come within

Vladimir the impaler  
Merciless he was  
Vladimir the impaler  
Killer of humanity

Kill, kill, kill, kill, kill, kill...
