

In The Name Of Ancient Gods

Black Messiah

Scry and keep an eye, my ravens,
On mankind and on my precious world
Times have changed, belief is broken
Human race forgot their roots

Prophets came from southern realms
With words full of lies and deceit
They came in order to deprive us
Of power, Midgard is doomed

Face it - Our time is up
Gods without believers are not strong enough to fight
Realize and change your mind
Bethink where you come from
Stan up - In your heart of hearts
Remember who you are

Free your soul, feel your power
And follow the ancient path
Deny the cross, accept your bloodline
Your faith is native in the north

Give your power to the ancient gods
Help'em to recover their strength
Raise your sword to plead your conviction
For the gods and for a better world

Face it - Our time is up
Gods without believers are not strong enough to fight
Realize and change your mind
Bethink where you come from
Stan up - In your heart of hearts
Remember who you are
