

## Still

black midi

I waited so long  
That only a fool would try and stay  
If not for you  
If not for only you  
I feel sunk in a way  
You've been sulking all day  
Our ship's been sunk in the bay

But I can still find enough  
Because

I could have been  
Bald with a baby  
A bald eagle baby

You've got me always wondering why  
I'm worn out

And if I ever needed love  
It's now  
Just take me

Thinking stupid  
I know it's late, but please stay up, and talk to me  
Accept some kind of old defeat  
I know a song that gives  
Everything that you need

I went to see him  
At the "Obviously Visiting" Arena  
You were a mile away  
But doing so good
