

Brain Waster

Black Moth Super Rainbow

You can fix my head from inside
It's not like anyone
It's not like anyone
They would always tell me that it's true
I should be switchin out my heart with you

Keep that motherfucker inside
It's all I ever learned
It's all I ever learned
Spittin all my troubles at the moon
I could be swappin out my blood with you

You can fix my head from inside
It's not like anyone
It's not like anyone
They would always tell me that it's true
I should be switchin out my heart with you

And I'll never soak my brain another day
I'll let it waste away
I let you drip away
And I'll never soak my brain another day
I'll let it waste away
I let you drip away
And I'll never soak my brain another day
I'll let it waste away
I let you drip away
And I'll never soak my brain another day
I'll let it waste away
I let you slip away
