

Demon's Glue

Black Moth Super Rainbow

Have you heard
Have you heard about them
They pull your hair
Pull your favorite tooth

Well I'm never gonna go
Never gonna go
Never gonna go
Never gonna go
Cause I might see you again

Well I'm never gonna go
Never gonna go
Never gonna go
Never gonna go
If I might see you again

If I go into your house
Possess me if you can
I'll meet you in another world
I don't know where or when
and if you make it to my world
Forget me if you can
I'm moving to another place
I don't know where or when

Well I'm never gonna go
Never gonna go
Never gonna go
Never gonna go
Cause I might see you again

Well I'm never gonna go
Never gonna go
Never gonna go
Never gonna go
If I might see you again

Eyes are blacker than a hole
Staring from another world
More confusing than before
Eyes are blacker than a hole
Staring from another world
More confusing than before

If I go into your house
Possess me if you can
I'll meet you in another world
I don't know where or when
and if you make it to my world
Forget me if you can
I'm moving to another place
I don't know where or when
