

Mr No One

Black Moth Super Rainbow

Someone told me someone's there
I lost myself, you're always moving
Hiding out in last night's dream
You're what you seem... no one

And I don't care
If you don't need me
And I don't care
If you don't need me
And I don't care
If you don't need me
And I don't care

Should get a little more sunshine
Should keep a little less haze around me
Should get a little more sunshine
Should keep a little less haze around me
Should get a little more sunshine
Should keep a little less haze around me
Should get a little more sunshine
Should keep a little less haze around me

And I don't care
If you don't need me
And I don't care
If you don't need me
And I don't care
If you don't need me
And I don't care
