

Spraypaint

Black Moth Super Rainbow

First thing
In the morning
Won't cry
Won't read a bunch of things to make me smile
In the morning
I love

I can't be without you
Fucked up when I'm living without you
Fucked up when I'm thinking about you
Used to color all day
I can't be without you
Fucked up when I'm living without you
Fucked up when I'm thinking about you
All the colors turn to grey

First thing
In the morning
Won't cry
Won't read a bunch of things to make me smile
In the morning
My love

I can't be without you
Fucked up when I'm living without you
Fucked up when I'm thinking about you
Used to color all day
I can't be without you
Fucked up when I'm living without you
Fucked up when I'm thinking about you
All the colors turn to grey

I couldn't need you more
I'm still living all by myself
I couldn't need you more
I break everything by myself
I couldn't need you more
I trashed everything by myself
I couldn't need you more
