

Windshield Smasher

Black Moth Super Rainbow

Show me the way you make my dreamin' okay
You love my hair because it grows every day
We get so happy with the hearts that we break
Hairspray, gasoline and roller skates

It grows on and on and on and on
It grows on and on and on and on
You smashed all of your all of your all of your friends
You smashed all of your all of your all of your friends

Show me the way you make my dreamin' okay
You love my hair because it grows every day
We get so happy with the hearts that we break
Hairspray, gasoline and roller skates

It grows on and on and on and on
It grows on and on and on and on
You smashed all of your all of your all of your friends
You smashed all of your all of your all of your friends

I hear the hair-oscopy
Cut you a lock you can keep
You give me all I want
Subliminally in my sleep
