

12 O'Clock High

Black 'N Blue

Here we come like a hurricane, bigger than life
Get ready for a chain reaction, 12 o'clock tonight

And when we arrive in your town, trust in me
We're lookin' for some loud action, you know what I mean, yeah
Before you know it, the clock strikes ten, give me the spotlight
It's never gonna end, you're feelin' alright

Ooh, meet you at midnight
Yeah, give me a bite
At 12 o'clock high
You're gonna know why, yeah
We come alive at 12 o'clock high

I've been waitin' such a long time, so turn me loose
I'm out of control, I'm ready to go, got nothin' to lose
You know we're gonna play guitar well, that's what I say
We ain't foolin' around, ain't gonna play dead

Ooh we ride on the wind
Yeah, till we see you again
At 12 o'clock high
You're gonna know why, yeah
Burnin' up at 12 o'clock high
We come alive
We're burnin' up, 12 o'clock high

(Solo)

12 o'clock high
You're gonna know why, yeah
12 o'clock high
12 o'clock high
You're gonna know why, why, oh
12 o'clock high, yeah
