

Bombastic Plastic

Black 'N Blue

What is this I see
Sitting here in front of me
Black as any night
Listen, old man, you'll see the light

Spinning round and round
Crank it up, listen to the sound

Bombastic plastic
No matter what you say
This really blows me away

I play it every day
Scratched and skipping all the way
Good things don't come and go
This one seems to grow and grow

Spinning round and round
Crank it up, listen to the sound

Bombastic plastic
No matter what you say
This really blows me away
Bombastic plastic
No matter what you say
Yeah, it's gonna blow you away

This really blows me away
Hear what I say

Spinning round and round
Crank it up, listen to the sound

Bombastic plastic
No matter what you say
This really blows me away
Bombastic plastic
No matter what you say
This sucker blows me away!
