

Strange Things

Black 'N Blue

Now all the lights are gone
Things are just too empty, yeah
The rats are gnawing at the brains again
And if I see that face inside the mirror
I'm fighting desperately
The things you'll never know

Strange things goin' through my body
It's a strain on me, it's a strain
But you'll never get home again, ah...
Strange things, Isaac never saw me
It's a strain on me, strange things

I've got a nice surprise
Think I'll leave this dream behind
The rats are dancing in the brains again
On final shot relieves me of this nightmare
The face of death I see
Things you'll never know

Strange things goin' through my body
It's a strain on me, it's a strain
But you'll never get home again, ah...
Strange things, Isaac never saw me
It's a strain on me, strange things

Strange things goin' through my body
It's a strain on me, it's a strain
But you'll never get home again, ah...
Strange things, Isaac never saw me
It's a strain on me, strange things
It's a strain on me, whoa!

And I shall hear tho' soft you tread above me
Oh, Danny Boy, oh, Danny Boy, I love you so
