## **Spring Vacation**

## **Black Oak Arkansas**

Spring days to summer days the heat wave is here let's run free you and me it's that time of the year

Birds swoon and flowers bloom it's time to mate if it ain't too late on summer beaches women teach us that in heat we all relate, all relate

Less clothes on women from the warm skies of heaven the season of creation comes with spring vacation

Clubs are rockin, everybodies hoppin there are parties all over town

don't matter who you are, if you haven't
got a car
you can hitch to get around - get around

Get out of the house have some fun burn your skin in the summer sun I'm happy now that winter's done cause now I'm free, free to run

Less clothes on women from the warm skies of heaven the season of creation comes with spring vacation I tell ya that there's much anticipation yes for nature's chain reaction and it comes with spring vacation all across the nation
