

Blues

bLACK pARTY

Shawty, I have the blues, ooh
If you went away, all my clouds are grey
I need different hues
Shawty, you got the jazz, ooh
Fine as hell and you super cool
And I want you back, I really do

I was pullin' stunts like a hummingbird
Doin' the most for your attention, I know
But you are the flyest alive
And you know it's true
I was too high to find the words
The perfect words to say to you
But, angel, come down from Heaven sometime
Swing by the cool side of town

Shawty, I have the blues, ooh
If you went away, all my clouds are grey
I need different hues
Shawty, you got the jazz, ooh
Fine as hell and you super cool
And I want you back, I really do, ooh

I wish I knew
The perfect words to say
To make you fall in love with me
Since I saw you out, I had an instant attraction
If only you knew how I felt about you

Shawty, I have the blues, ooh
If you went away, all my clouds are grey
I need different hues
Shawty, you got the jazz, ooh
Fine as hell and you super cool
And I want you back, I really do
