

## Cowboy

bLack pARty

Heard they going 'round, telling lies  
Weigh the scale like my star sign  
I know you wanna throw the towel in (towel in)  
But I wanna show you more  
Simple things that open doors  
I can be your key if you let me in

I know you heard some things about me  
I know you heard some things about me  
Don't let what they say  
Change how you feel 'bout me, me

I know you wanna kick it with a real cowboy  
She wanna be my shawty in my new Convo  
I know you feeling curious, so hop on and see  
Excuse little lady while I'm kissing the sky  
She treats me like a horse, she wanna go for a ride  
I know you feeling curious, so hop on and see

See the stars, you're my moon  
Waste your time, I won't do  
I know they told you I'd let you down  
Night is young, forever too  
1 + 1 is me and you  
Glow up with me, I'll always hold you down

I know you heard some things about me  
I know you heard some things about me  
Don't let what they say  
Change how you feel 'bout me, me

I know you wanna kick it with a real cowboy  
She wanna be my shawty in my new Convo  
I know you feeling curious, so hop on and see  
Excuse little lady while I'm kissing the sky  
She treats me like a horse, she wanna go for a ride  
I know you feeling curious, so hop on and see
