

Low End

bLack pARty

You know you're the one I can't leave alone
I'm your Ice Cube, you my Nia Long
It's Friday feeling breezy
As we cruise down the highway
She lay back and relax
I wonder if I sit sideways
Sippin' on sizzurp by Three 6
No greater love by Sade
Smellin' like Chanel No. 5
Darlin', I know you love it
I can see it in your eyes
Whispering sweet nothings in your ear
Hop in my spaceship, girl
Let's get high

I wanna go to paradise
She wanna go too
Take a walk through the garden
And when we roll through
She say she wanna do drugs
I let her roll two
I'm just looking for a cloud
And we can float too
I wanna go to paradise
She wanna go too
Take a walk through the garden
And when we roll through
She say she wanna do drugs
I let her roll two
I'm just looking for a cloud
And we can float too

Let's get away
Far away
There's a place that we can go
I wanna explore the gardens baby
Just let me know if you wanna go
Let's get away
Far away
To a place you've never been
Leave all of your problems baby
And let them go to the wind

I wanna go to paradise
She wanna go too
Take a walk through the garden
And when we roll through
She say she wanna do drugs
I let her roll two
I'm just looking for a cloud
And we can float too
I wanna go to paradise
She wanna go too
Take a walk through the garden
And when we roll through
She say she wanna do drugs
I let her roll two

I'm just looking for a cloud
And we can float too
