

Drones

Black Peaks

The teachers late for class
I'm watching you
All rubbing your top brass
I'm watching you

What would you look like with a Chelsea smile on your face?
What do you know?
How would you feel me pushing needles in your gums?
You know you want it, I just need it, I'll come get it

You!

How would you feel if you could walking my shoes?
What have you done?
Pulling the skin from your cheeks, piece by piece
You know you want it, I just need it, I'll come get it

You!

Slip away, my love
Slip away my only love
Slip away, my one and only love
Slip away from me
Quick release
Slip away my love
Slip for me
Slip from me
Quick release
So cold

Cold!

Walk if you wake
To the sun
And it's cold
Walk if you wake
To the sun
And it's cold
Walk if you wake
To the sun
And it's cold
