

Slow Seas

Black Peaks

Oh
So many tears in these waters
Too many faces
Hide behind fences
Walked from the edge of the earth

Oh
How could they drown in our waters?
Stop drawing borders
Start building bridges of hope

Our hope
Our hope

Too many years in these waters
So many faces
Too many pictures
Sickening images
Cover the face of our world

We are the earth
You are The Star
You are The Sun
Take comfort in what you have done

Where are the heroes
Soldiers with halos
Hollow and empty
Reaching for purpose

Broken and innocent
Where's the humanity?

Too many places
Cower in fear
Scared by their faces
Stretching the paths of our world

We are the earth
You are The Star
You are The Sun
Take comfort in what you have done

We are the earth
You're not the stars
You're not the sun
Take comfort with what you have done

Innocence is broken
Fear fell from the past
Look at what you've broken
Fear eats from within

Cold humanity
Cold indifference
Broken innocence
Cold humanity

We are the earth
You are The Star
You are The Sun
We are the earth
