

Black Halo

Black Pistol Fire

Silence it sits on lit cigarette
Lips won't forget but you try to resist
California dreaming, take it or just leave it
Talking in my sleep when I'm wide awake

Back of my mind, no telling what you'll find
Darling you know it's just a waste of time

Why you wait so long
Every road I go seems darker than one
Before you get too close
Never walk alone, got my shadow and a Black Halo
Never walk alone, got my shadow and a Black Halo
I never walk alone, got my shadow and a Black Halo

I walk around with my head up in the clouds
Hard to say if I'm ever coming down
Broken and shattered, doesn't really matter
You know I hate to watch you walk away

Back of my mind, no telling what you'll find
Darling you know it's just a waste of time

Why you wait so long
Every road I go seems darker than one
Before you get too close
Never walk alone, got my shadow and a black Halo
Never walk alone, got my shadow and a black Halo
I never walk alone, got my shadow and a black Halo

Black halo
A black halo
A black halo

Back of my mind, no telling what you'll find
Darling you know it's just a waste of time
Back of my mind, no telling what you'll find
Darling you know it's just a waste of time

Why you wait so long
Every road I go seems darker than one
Before you get too close
Never walk alone, got my shadow and a Black Halo
Never walk alone, got my shadow and a Black Halo
I never walk alone, got my shadow and a Black Halo
