Black Pistol Fire

Take what you can get or just settle for the rest
Worn out your welcome, babe, don't take this the wrong way
Working awful hard to keep you right where you want
Soft and sweet, it cuts you like a whisper in the dark, singing

You know you got a secret
You know I couldn't keep it
You know you got the best of me
You know all that's left of me

It couldn't come at a worst time, used up all my lifelines
Seems like such a far cry, put me on the front lines
Too far gone, gimme one more for the road
Cheap shots, low blows, what do you take me for?
Keep on trying to bring me down
Down on your level, baby, down on your level
Keep on trying to bring me down
Down on your level, baby, down on your level

Singing oh, no, here we go again
Don't act like you could give a good god damn
So long you let it go to waste
Out of my hands, but I won't forget the taste

You know you got a secret
You know I couldn't keep it
You know you got the best of me
You know all that's left of me

Couldn't come at a worst time, used up all my lifelines
Seems like such a far cry, put me on the front lines
Too far gone, gimme one more for the road
Cheap shots, low blows, what do you take me for?
Keep on trying to bring me down
Down on your level, baby, down on your level
Keep on trying to bring me down
Down on your level, baby, down on your level

Woah, oh, oh, oh
Oh, oh, oh, oh
Woah, oh, oh, oh
Oh, oh, oh, oh

Oh, no, here we go again
Don't act like you could give a good god damn
So long you let it go to waste
Out of my hands, but I won't forget the taste

Couldn't come at a worst time, used up all my lifelines
Seems like such a far cry, put me on the front lines
Working awful hard to keep me right where you want
Soft and sweet it cuts you like a whisper in the dark
Too far gone, gimme one more for the road
Cheap shots, low blows, what do you take me for?
Keep on trying to bring me down
Down on your level, baby, down on your level
Keep on trying to bring me down

Down on your level, baby, down on your level

Woah, oh, oh, oh

Oh, oh, oh, oh

Woah, oh, oh, oh

Oh, oh, oh, oh
