

Temper Temper

Black Pistol Fire

Don't get too close because I'm ready to blow
I go for broke when my blood runs cold
Just ain't no telling what my hands might do
If somehow got a hold of you
Ah ah temper temper now
Was only saying don't you talk me down
I never stop to worry none
Now the damage has been done

You were the sun babe
I was the burn
You that lesson girl
I never learned
You were the lie
I couldn't hide
You were that gun for hire babe
Keep me none the wiser

So keep on doing what you damn well please
Play it off like it's all a tease
I wouldn't put it past someone like you
To strike a match then you light my fuse
Ah ah temper temper now
Was only saying don't you talk me down
I never stop to worry none
Now the damage has been done

You were the sun babe
I was the burn
You that lesson girl
I never learned
You were the lie
I couldn't hide
You were that gun for hire babe
Keep me none the wiser

Keep me none the wiser
Keep me none the wiser
Keep me none the wiser

You were the sun babe
I was the burn
You that lesson girl
I never learned
You were the lie
I couldn't hide
You were that gun for hire babe
So keep me none the wiser

Keep me none the wiser
Keep me none the wiser
Keep me none the wiser
Keep me none the wiser
