

Fire

Black Pumas

I've got a song on my heart, baby
She keeps me grooving, steady grooving
Got a lover on my mind
That keeps me wanting, steady wanting more

There's a fire, call the fireman
If you're in pain, baby, call a doctor
Don't be afraid to say "I need you"
I will understand

Baby love, pretty woman, walking down the way
If you get tired use your soul power and you'll find the way

And if there's a fire, call the fireman
If you're in pain, baby, call the doctor
Don't be afraid to say "I need you"
I will understand

Help me understand

Oh, I long for your lovin', I can't get enough
When you tell me I can be there when you love again

When there's a fire, call the fireman
If there is a pain, baby, call the doctor
Don't be afraid to say "I need you"
I will understand

Help me understand
Alright, help me understand you

Smooth, smooth sailing, when I understand
Smooth, smooth sailing on the other side

If there's a fire, call the fireman
If you're in pain, baby, call a doctor
Don't be afraid to say "I need you"
I will understand
