

Hello

Black Pumas

Ooh, hello, hello, hello, hello
Ooh, hello, hello, hello, hello

Ooh, I know you know
I loved you so
The sun gets closer
When it looks at you

I said hey, little darling, my heart hurts a little
They say they lost with the job and the fiddle
I've never been to Mars and the pain can't get rid of it
The wheels fall off, you never get to say

Ooh, hello, hello, hello, hello

I never wanna go again
I had to let you know again
I really wanna love again, hello
One more time, baby

Ooh, I know you know
I love you so
The sun is closer
When it looks at you

I said hey, little darling, my heart hurts a little
To say that you're lost, when you love in the thick of it
I've never been to Mars, but I'm on my way
When the wheels fall off, help me navigate, and say

Ooh, hello, hello, hello, hello
I never wanna go again
Ooh, hello, hello, hello, hello
Love is on the way

Take my heart, but please don't break it, love is on the way
Take my heart, but please don't break it, love is on the way
Take my heart, but please don't break it, love is on the way
