Sell It

Black Rebel Motorcycle Club

I'm mad, gonna sell it on a t shirt
I'm livin' out a borrowed age
I got God, I got the medication
I got enough to make it all go away

Got blood on the mirror, boy
Got blood on the empty page
Got blood on the mirror, boy
Got blood on the empty page

I got God, I got the imitation
I got the will to make it all okay
It's all wrong, wrong intention
I got mine from an empty faith

I'm not proud, too proud of it
I'm ain't proud, too proud of it
I'm not proud, too proud of it
But I'm fine, just fine with it

It's not enough to carry us over
It's not enough to make it all go away
It's not enough to keep me from believing
It's not enough to make it all okay
Well, I'm mad, I don't want to be right
Let it outright take you away

Get it, I got it on the run and I'll set it with you
Get it, I got it on the run and I'll set it with you
One more taste is all it takes
Then you bled me gone

I'm death at the lights hesitation
I got a right just to give it away
I got a mean reputation
I got blood on my stolen fate
I got a liar's salvation
I got the dope and the black tar veins

I'm not proud, too proud of it
I'm ain't proud, too proud of it
I'm not proud, too proud of it
But I'm fine, just fine with it

It's not enough to carry us over
It's not enough to make it all go away
It's not enough to keep me from believing
It's not enough to make it all okay
Well, I'm mad, I don't want to be right
Let it outright take you away
I'm mad, I don't want to be right
It's not enough to make it all okay

I'm not proud, too proud of it
But I'm fine, just fine with it
I'm not proud, too proud of it
But I'm fine, just fine with it

Get it, I got it on the run and I'll set it with you
Get it, I got it on the run and I'll set it with you
One more taste is all it takes
Then I'm gone
Get it, I got it on the run and I'll set it with you
Get it, I got it on the run and I'll set it with you
One more taste is all it takes
Then you bled me gone
Get it, I got it on the run and I'll set it with you
Get it, I got it on the run and I'll set it with you
Get it, I got it on the run and I'll set it with you
Get it, I got it on the run and I'll set it with you
