Black Sabbath

I am the world that hides The universal secret of all time Destruction of the empty spaces Is my one and only crime I've lived a thousand times I found out what it means to be believed The thoughts and images The unborn child that never was conceived

When little worlds collide I'm trapped inside my embryonic cell And flashing memories Are cast into the never ending well The name that scorns the face The child that never sees the cause of man The deathly darkness that Belies the fate of those who never ran

Well I know its hard for you To know the reason why And I know you'll understand More when it's time to die Don't believe the life you have Will be the only one You have to let your body sleep To let your soul live on

Love has given life to you And now it's your concern Unseen eyes of inner life Will make your soul return Still I look but not to touch The seeds of life are sown Curtain of the future falls The secret stays unknown

Just remember love is life And hate is living death Treat your life for what it's worth And live for every breath Looking back I've lived and learned But now I'm wondering Here I wait and only guess What this next life will bring
