

# Electric Funeral

Black Sabbath

Reflex in the sky  
Warn you you're gonna die  
Storm coming, you better hide  
From the atomic tide  
Flashes in the sky  
Turns houses into sties  
Turns people into clay  
Radiation minds decay

Robot minds of robot slaves  
Lead men to atomic graves  
Plastic flowers melt in sun  
Fading moon falls upon  
Dying world of radiation  
Victims of mad frustration  
Burning glow of obscene fire  
Like electric funeral pyre

Buildings crashing down  
To Earth's cracking ground  
Rivers turn to wood  
Eyes melt into blood

Earth lies in death bed  
Clouds cry for the dead  
Terrifying rain  
Ease the burning pain

Electric Funeral  
Electric Funeral  
Electric Funeral  
Electric Funeral

And so in the sky  
Shines the electric eye  
Supernatural king  
Takes Earth under his wing  
Heaven's golden chorus sings  
Hell's angels flap their wings  
Evil souls fall to Hell  
Ever trapped in burning cells!
