

The Fallen

Black Sabbath

I'm turning around and around
I'm falling down and there is no sound
I said fear grips my mind
Tears will make me blind

I'm trapped in a falling dream
Alone with a silent scream
Tumbling through dead of night
I'm falling right out of sight

I'm flying in water it's all around
I'm falling slowly through the ground
Eagles nest nearby
Deep in my sky

I'm trapped in a falling dream
Alone with a silent scream
Tumbling through dead of night
I'm falling right out of sight

I'm reaching out in the darkness
I'm trying to reach for your hand
But every time I get near you
You're gone and I don't understand

You know I'm falling, I'm falling
It's dark and I'm blind
Oh, yes, I'm falling, I'm falling
Oh, oh, oh

It's night time, the night time, the day
Oh, life goes on in this rain
It keeps me from flying
It leads me to die

I'm trapped in a falling dream
Alone with a silent scream
Tumbling through dead of night
I'm falling right out of sight

I'm dead if I hit the ground
