

# Under The Sun

Black Sabbath

Well, I don't want no Jesus freak to tell me what it's all about  
No black magician telling me to cast my soul out  
Don't believe in violence, I don't even believe in peace  
I've opened the door, now my mind has been released

Well, I don't want no preacher telling me about the god in the sky  
No, I don't want no one to tell me where I'm gonna go when I die  
I want to live my life, I don't want people telling me what to do  
I just believe in myself 'cause no one else is true

Every day just comes and goes  
Life is one long overdose  
People try to rule the nation  
I just see through their frustration  
People hiding their real face  
Keep on running their rat race  
Behind each flower grows a weed  
In their world of make-believe

So believe what I tell you, it's the only way to fight in the end  
Just believe in yourself you know you really shouldn't have to pretend  
Don't let those empty people try to interfere with your mind  
Just live your life and leave them all behind
