Black Sabbath

Lord she's handsome as she flows across the floor
Nothing I've seen in my life has ever pleased me more
She's got the look of freedom, and it makes you think she's wil
d
But I can see right through it all, it's the way to have a chil
d

Oh, walk away
She's looking to love you
There's nothing to say
Just turn your head and walk away
Walk away, walk on

She moves in sunlight, never seen the night at all Like a star in the midnight sky, burns before it falls I've never been lonely, and I can't imagine why Maybe she could be the one to tell me, I guess it's do or die

Can't see her fire
But I can feel her heat, all right!
It's rising higher
I'm walking the wire

Walk on by!

Oh! Walk away!
She's looking to love you
There's nothing to say
Just turn your head and walk away
Oh, walk on by, walk away!
Walk on!

You'll feel her fire, she'll lift you higher But don't be fooled! just turn your head and walk away!
