

When I Came Down (1969 Demo)

Black Sabbath

When I came down for the first hour
All of my problems had got a new form
You came to me clutching a flower
Talking of peace and keeping me warm

If you could believe in me
I'll come for you
Instead of deceiving me
I want you, want you

When I came down for the first hour
All of my problems had got a new form
You came to me clutching a flower
Talking of peace and keeping me warm

If you could believe in me
I'll come for you
Instead of deceiving me
I want you, want you
