My mystery box is somewhere very near
I feel it inside me, I'm feelin' very weird
Somethin' wey I dey chase
For years back in the days
If you told me I would see this flag wavin' I won't believe you, no
Cause how far could I go? (How far could I go?)
Heya!
I'm too close I can feel it
Somethin' is vibratin'
Inside me I'm celebratin'
But outside them dey kill me
My own-self dey kill me (My own body, my own body)

My own anxiety
My inferiority what-what-what
Ah! Them all dey kill me
Them all dey kill me
And I don't feel okay (Okay)
My heart is beatin' so fast (So fast)
So fast
So fast (So fast)

Oh Soja Soja Soja Soja
Stand and beat your chest
They dey come
They dey come
They dey come
No make them catch you off-guard
Don't let them touch your skin oo-oh
Oh Soja Soja Soja Soja
Stand and beat your chest
They dey come
They dey come
They dey come
No make them catch you off-guard
Don't let them touch your skin oo-oh

Cause you know how e be my shella
Streets gettin' colder
They bury my brother spirit he no fit stand proper he dey shake o
He no fit stand proper he dey shake o
It's hard to believe my genna
You for see with your naked eyes I swear my papa
This season is a very dark one (A very dark season)
