

Evil

Black Stone Cherry

(One, two, three, four!)

(Well...)

You're a long way from home
Can't sleep at night
Grab your telephone
Something ain't right
There's evil
Evil is going on
Well I'm just warning you, brother
Better watch your happy home

You're a long way from home
Can't sleep at all
Feel like a muse kid
In your stone
There's evil
Evil is going on
Just want to warn you, brother
Better watch your happy home

You're a long way from home
Can't sleep at night
Grab your telephone
Something ain't right
Well there's evil
Evil is going on
I'm just warning you, brother
Better watch your happy home

I'll be goin' in and fuckin shit up one time, come on

There's some evil
Ah, don't you know it is

There's an evil...
