

## Fade Away

Black Stone Cherry

If I died today, I wonder what you'd say  
Would you criticize my life, or smile and wave goodbye?  
If I died today, would you be afraid?  
Would you be thankfull for our time or would you hang your head  
and cry?  
Cause Girl I know it could go either way

Baby Baby don't you look back  
All your tears won't change your past  
They'll only drown the smiles on your face  
And maybe Baby all that we had, was never ever meant to last  
So let me go, but don't you let me fade, away

Don't You Let Me Fade

If you close a door, swim for the shore  
Walk straight into the sun and let the healing horses run  
Cause it won't do you any good to bleed  
Another tear, Oh what became of me?

Baby Baby don't you look back  
All your tears won't change your past  
They'll only drown the smiles on your face  
And maybe Baby all that we had, was never ever meant to last  
So let me go, but don't you let me fade

When he holds you in his arms, and your laying in my bed  
Does he turn you on, the way that I did?

Baby Baby don't you look back  
All your tears won't change your past  
They'll only drown the smiles on your face  
And maybe Baby all that we had, was never ever meant to last  
So let me go, but don't you let me fade

Fade Away, Fade Away - Please don't let me fade (2x)  
(Please don't let me go)  
Don't you let me, let me go
