

Live This Way

Black Stone Cherry

Would you tell the truth, if you knew what I was gonna say
Forgive me if I'm wrong, but all along we've done it your way

Gone, gone, gone is what I say
Gone, gone, gone, gone to stay

Leaves are changin', time is wasting
Sorry if this comes out wrong
I'm tired of waiting, anticipating
Can't believe we've been this long
Life is way too short to live this way

For every lie you tell seems a thousand tears have fell
In my state of mind I'm trying to find my way back from hell

Gone, gone, gone, gone to stay

Leaves are changin', time is wasting
Sorry if this comes out wrong
I'm tired of waiting, anticipating
Can't believe we've been this long
Life is way too short to live this way

Leaves are changin', time is wasting
Sorry if this comes out wrong
Leaves are changin', time is wasting
Sorry if this comes out wrong
I'm tired of waiting, anticipating
Can't believe we've been this long
Life is way too short to live this way
