Push Down & Turn

Black Stone Cherry

Take your soul (set it free)
Take a hold (of lettin' be)
Cut the thread and stitch up your heart
Call the doctor (it's something bad)
Like once before but (twice as sad)
The world got dark cause we all got cold

I'm glad I called ya, what can ya offer
Push down and turn, forward reverse
Once by mouth two times a day
See ya next month, same time, same place
Can you understand?
Every life can take tragic turns, for what it's worth
Push down and turn

Hold onto (being scared)
It's how you know (you're still there)
If you have to crawl just keep movin' on
Where's the witness (are you sick)
I can't see it (is this a trick)
Repeat the steps until bottles gone

Push down and turn, forward reverse
Once by mouth two times a day
See ya next month, same time, same place
Can you understand?
Every life can take tragic turns, for what it's worth
Push down and turn

Push down and turn, forward reverse
Once by mouth two times a day
See ya next month, same time, same place
Can you understand?
Every life can take tragic turns, for what it's worth
Push down and turn
