

# Ride

Black Stone Cherry

Wheels of fire, a heart of stone  
Years of rollin' broke my bones  
Burnin' dust to beat the odds  
Shots with the devil, and tea with God

Ride, straight on through the flames that burn so  
High, in the name of freedom  
Ride, it's the only way that we  
Survive, they learn just what you teach them

Modern rebel, what's your cause (what's your cause)  
Have you learned yet, or are you lost  
We live with reason, stand with pride  
Let's be angels when we die

Ride, straight on through the flames that burn so  
High, in the name of freedom  
Ride, it's the only way that we  
Survive, they learn just what you teach them

Ride, straight on through the flames that burn so  
High, in the name of freedom  
Ride, it's the only way that we  
Survive, they learn just what you teach them
