

Long Way Down

Black Swan

You'd better hang on to my every word
It's everything to carry on
Don't be afraid to die it's not the end
The sun will rise again on you my friend

Feels like it's never ending
Just like the great big war
When cities need defending
Know what you're fighting for

Fuel the flames
Wicked games

It's a long way down
You will crash into the ground
Why you burn it down
There's no hope where you are bound
When your lost my friend it's a long way
A long way down

I see the fire burning in your eyes
Still blinded by the smoke and lies
They've got you speeding down a dead end street
Won't see the stop sign but you'll feel the heat

Feels like it's never ending
Somethings will never change
Your very life's depending
But your really not that brave

Feel the pain
Hide the shame

It's a long way down
You will crash into the ground
Why you burn it down
There's no hope where you are bound
When your lost my friend it's a long way
A long way down

I heard the sound of thunder
I heard you scream
I reached up to the heaven's
To tell me what it means
Still searching for the answer
I found the place
Inside the sacred chamber
Where there was only peace

Fuel the flames
Wicked games

It's a long way down
You will crash into the ground
Why you burn it down
There's no hope where you are bound
When your lost my friend it's a long way

It's a long way down
You will crash into the ground
Why you burn it down
There's no hope where you are bound
When your lost my friend it's a long way
A long way down

A long way down
It's a long way down
It's a long way down
Going down
It's a long way down
It's a long way down
