

Make It There

Black Swan

How many times have you heard the story
Rolled your eyes at me and said
I know all of the parts yeah
Specially the one about my broken heart
How many times have you said you're sorry
Bought me a car and apologized
Flew me to New York on my birthday
When I laughed so much that I almost died

So why don't you answer all joking aside
What could it be that you're trying to hide

Cos I don't know where this is going
And I don't know if you really care
But this road we're on is narrow and broken
And I don't know if my heart can make it there

I could just whisper or I could just sing
I could just sit here and do absolutely nothing
But that's not who I am that's not what I do
My future plans have always included you
It's mind over matter and what matters is this
My world has been shattered and I'm falling to pieces
It's a head on collision it's a meteor storm
Just right down impossible to let go or to you carry-on

No more conversation and no sleepless nights
I should've known better should've done what is so right

Cos I don't know where this is going
And I don't know if you really care
But this road we're on is narrow and broken
And I'm not sure if my heart can make it there

Take all the pieces of this broken glass
There's still one piece missing that sets us apart
Can't put it back together it's all jagged and torn
The old for the new it's time to move on

I don't know where this is going
And I don't know if you really care
But this road we're on is narrow and broken
And I don't know if my heart can make it
I don't know if my heart can make it there

Make it there
Yeah I don't know
If I'll make it there
Oh I don't know
(I don't know if my heart can make it)
If I'll make it there
(I don't know if my heart will break)
If I'll make it there
(I don't know if my heart can make it there)
Yeah I don't know if my heart can make it there

...
