

# Sacred Place

Black Swan

I don't know if you feel the same  
It only matters if we share the pain  
You're the reason for my everyday  
The light fades as you turn to walk away  
And if it wasn't for my love for you  
You know my everyday, everyday  
Would be no more than just a day

Do you believe coincidence  
When we've got nothing more to say  
Do you believe a second chance  
Could lead us to that sacred place

Every time that I see your face  
Is one more day that I can embrace  
In every way and everything you say  
Is nothing more than a perfect day

And if it wasn't for the sun and moon  
Or the wind that drives the rain

Do you believe coincidence  
When we've got nothing more to say  
Do you believe a second chance  
Could lead us to that sacred place

Every night I pray for a miracle oh  
Do you, do you?

We're in a sacred place  
Did we get here by chance  
Oh

Do you believe coincidence  
When we've got nothing more to say  
Do you believe a second chance  
Could lead us to that sacred place

Do you believe  
Oh I believe  
You know that I believe  
Everybody needs a second chance  
To lead us to that sacred place

Every night I pray  
For that sacred place  
That sacred place  
That sacred place  
(Don't be afraid)  
Every night I pray  
(Don't be afraid)  
Ooh that sacred place  
(Don't be afraid)  
That sacred place  
(Don't be afraid)  
Ooh that sacred place
