

She's On To Us

Black Swan

She's such a spy don't try to deceive her
She'll only make you cry little boy don't ever tease her
She's undercover don't trust you with another
So when you come home late investigate your secret lover

Don't ever lie to my little girl
Especially when you try to deny her

She's not cryin' anymore
She's on to us
I think she's on to us
And she don't need me that's for sure
No need for explanation about my indiscretion

She's up and down the hotel elevators
Drinks her favorite crown slidin' down the escalators
Takes her photographs like a tourist on vacation
When she finds a clue she'll file for a separation

Don't ever lie to my little girl
Discretion for her wild accusations

She's not cryin' anymore
She's on to us
I think she's on to us
And she don't need me that's for sure
No need for explanation about my indiscretion

There'll never be a lover to take us from each other
I promise you, yes I promise you
And when I'm far away I'll call you everyday
Unless I get constructive with someone more destructive

Don't ever lie to my little girl
Discretion and her wild accusations
Don't ever lie and never deny to me... oh!

She's not cryin' anymore
She's on to us
I think she's on to us
And she don't need me that's for sure
A private conversation late night interrogation
She's not cryin' anymore
She's on to us
I think she's on to us
And she don't need me that's for sure
No need for explanation about my indiscretion

She's on to us (she's alone)
She'll only make you cry little boy don't ever tease her (don't tease her)
If you will deny she'll destroy, don't ever try
She's on to us - she's on to us
Don't try to deceive her... you won't believe her
She's so on to us, she's so on to us
